The most important and recent **judgments** of the **CJEU**

This book places special focus on the role of the Court of Justice of the European Union seen from different perspectives. Moreover, it analyses selected topics (e.g. abuse and anti-avoidance measures, taxable base and rates, treatment of Public Bodies, exemptions, and deductions) by looking at the most important and recent judgments of the Court of Justice of the European Union. Experts from all over the world, not just from academia but also government representatives and tax practitioners, have given their input and helped us put together what is an informative and worthy read for anyone dealing with indirect taxation on a professional basis.
